For: Device for Treating Planar Elements with a Plasma Jet

Assistant Commissioner of Patents  
Washington, D.C. 20231

RECEIVED  
FEB 04 2002  
TC 1700

**SUPPLEMENTARY PRELIMINARY AMENDMENT**

SIR:

The following text of a Preliminary Amendment was filed on August 27, 2001, along with the filing of a CPA application.

On December 7, 2001, a Notice of Non-Compliant Amendment (37 CFR 1.121) was mailed out from the U.S. Patent Office, stating that the Amendment in question "did not include a marked-up version of the amended claim(s). 37 CFR 1.121(c)(1)(ii)."

This Supplementary Preliminary Amendment reiterates all the content of the initial Preliminary Amendment but changes the format of that Amendment to conform to current U.S. patent practice.
